

Trusts & Estates

Our trusts and estates department provides a full range of services to individual clients, including sophisticated tax and estate planning; administration of estates and trusts; drafting wills, trusts, business and marital agreements; and formation and administration of charitable entities.

We represent a broad range of individuals, including corporate executives, owners of closely held businesses, individuals with substantial inherited wealth and individuals with significant property interests abroad. We represent our clients, *inter alia*, in matters before the Internal Revenue Service, state tax authorities and New York Surrogate's Courts.
